PROFESSIONAL SUMMARY

AI Software Engineer with a specialization in LLM Orchestration and Autonomous Agentic Workflows. Proven expertise in deploying production-grade AI systems, including multi-platform social media analytics engines and real-time intent-capturing chatbots. Adept at bridging the gap between scalable MERN stack architecture and sophisticated AI models (Gemini, Llama) to drive business intelligence and operational efficiency.

TECHNICAL SKILLS

LLM Integration , Automation , RAG, Autonomous Agents, Prompt Engineering, Dialogflow, Rasa, N8N, OpenClaw, LangChain , AI Coding tools ,Python, Lora,QLoRA,Docker,CI/CD,FastApi,Django,LangGraph,PydanticAI,Ollama Git,Github, Render,Netlify MongoDB,Postgresql,Mysql, Kubernetes, Vector Databases, vLLM / TGI.

PROFESSIONAL EXPERIENCE

AI Engineer | Everymedia Technologies, Mumbai *June 2025 – Present*

- Architected an AI-Native Social Media Analytics Engine by orchestrating the Gemini API to perform automated sentiment analysis and campaign performance tracking.
- Engineered an Autonomous Intent-Capturing Chatbot utilizing Ollama and Posthog for real-time behavioral analytics; improved user engagement on 3D web environments.
- Developed a Computer Vision-based Media Management System using Python to automate facial recognition and intelligent event segregation.
- Deployed a Production-Level Stress Analytics API for healthcare clients using Flask, integrating ML-based biometric data processing.

MERN Stack Developer Intern | Octanet Pvt Ltd, Remote *October 2024 – November 2024*

- Optimized Web Performance by implementing responsive React components and Redux, resulting in a 35% increase in user engagement.
- Implemented Advanced Monitoring Tools, improving overall system observability and troubleshooting efficiency by 40%.

TECHNICAL PROJECTS

[StressAnalyzer: AI-Powered Mood & Biometric Analytics](#)

[MuscleMate: Personalized Fitness Ecosystem](#)

EDUCATION

B.Sc. in Computer Science | MIT World Peace University (WPU), Pune *2022 – 2025 / CGPA: 8.1/10*

CERTIFICATIONS & ACHIEVEMENTS

- Runner-Up: Hack MIT WPU Ideathon (2025)
- Special Recognition: Evolve SaaS Hackathon
